**Source:** [https://starwars.fandom.com/wiki/Nightsister\\_energy\\_bow](https://starwars.fandom.com/wiki/Nightsister_energy_bow)

\* [https://starwars.fandom.com/wiki/Lightsaber\\_rifle](https://starwars.fandom.com/wiki/Lightsaber_rifle)

**Description:** A bow retrofitted from the ones used by the Nightsisters of Dathomir. Crafted by a defector of the Jedi Order, instead of being powered by a plasma generator, this bow is powered by Kyber Crystal making the blasts far more powerful. While not able to penetrate everything, like a lightsaber can, the resulting bolts of energy are substantially more dangerous than a regular energy bow.

### Item Slots:

- 1 *Lightsaber Focusing Crystal* slot of capacity 1, allowing items of type *Lightsaber Focusing Crystal - I*, *Lightsaber Focusing Crystal - II*, or *Lightsaber Focusing Crystal - III*
