

“AHHHHH! KITTY!” Shouted the Mirialan. She paid no attention to the owner of the Nexu as the poor Nexu yowled in surprise at the sudden loud noise. “Ohmygosh aren’t you soooooooooooooo kriffin’ cute I could just eat you up and-” She withdrew her hand as the Nexu tried to bite her.

“Womp Rat,” the stranger sounded surprised. Or did she yell it? Maybe she was a bit annoyed? Angry? “Who *are* you?” The same voice rang out. Sagitta turned her head and saw a rather attractive female. She had tanned skin and heterochromia-colored eyes. There was a lightsaber at her hip but Sagitta doesn’t pay that any mind. Despite being a Force user herself, she actively avoids the Force like it was some disease.

“Oh hi! I’m Sagitta! I just love and adore animals, can I pet him? You know he kind of reminds me of that nexu I met on this planet - ah - kriff- was the name of that planet!?” She groaned as she tried to remember. “Anyways! So, she was a big one, a really big one and she had a bunch of baby nexu! They were SO cute! I wanted to take them home but Buir said no because they were safe with their mom which he made a good point. Then I started to feed her because I figured I should help a mother out - speaking of helping a mother out, did you know that Naulotan lay eggs? That’s not even the weird part! They were pregnant with the egg first and then they laid it? How does that even make sense - speaking of eggs, I should get some for breakfast.”

Sagitta looked at the female and honestly, she looked like an orbak caught in speeder’s headlights.

“So.... Can I pet him? What’s his name? Oh! I am so sorry! What’s your name? You’re really pretty by the way!” The Mirialan gave the Sith a small smile.

There was a moment of pause. It was as if the stranger was waiting for Sagitta to talk more which she didn’t.

“You talk too much.”

“I’ve been told!”

“You can’t talk about Naulotan eggs and then mention you needed to get some eggs,” the female stated matter-of-factly.

Sagitta looks confused. “Why not? It’s true though?”

“People would assume you would buy and eat Naulotan eggs. Would you?”

“OH MY STARS NO! I would never do that!” Sagitta squeaked in surprise, “I was just starting a conversation! And I just ended up bouncing from one place or another, that’s all! Not my fault that you just stood there, all brooding and quiet like-!”

“... you’re talking too much again.”

“- So I felt the need to have a conversation and somehow the whole eggs thing came up. Did I tell you about the time I had a mission to retrieve an egg? That was scary. Almost drowned. Thankfully Clawless, my- Hey!” She pouted when she noticed that the Sith and Nexu had left. Then she waved and shouted out, “IT WAS LOVELY MEETING YOU BOTH! I’LL BE SURE TO BRING SOME RAW MEAT FOR YOUR NEXU NEXT TIME!”
