[AUDIO BEGINS]

[00:15:02] **Sergeant Keii-Val** : "Ali'si, I promised I'd transmit every day from the front if I could. It's been a few cycles since we've had any extra-solar assignments, and we told our parents one day we'd escape Solyiat and see what the rest of the Galaxy had to promise us. I'm sorry my first trip out had to be without you, but on a soldier's salary, it was always gonna take us a little while longer to get out together."

[00:17:05] **Noise detected** : Sergeant Kei-Val, nervous laughter.

[00:34:29] **Sergeant Keii-Val** : "It's been rough down here on Selen. I've always thought this place was a tropical paradise, and if you'd believe the Board of Tourism, it is. It lives up to everything it promises, waterfalls, lush jungles, beaches that go on for miles. Their spokeswoman Sivall didn't warn us about the karking terrors IN THE JUNGLES though."

[00:37:23] **Noise detected** : Gunfire, approximate distance: medium. Ruffled fabric over arm-comm unit.

[00:37:29] **Corporal Iliim** : "Contact"

[00:39:44] **Noise detected** : Gunfire, approximate distance: immediate.

[03:02:11] **Corporal Iliim** : "We're supposed to be here on a logistics run, not providing fire support."

[03:06:45] **Noise detected** : Unknown, strained and guttural, assumed dying 'Caxqette'.

[03:11:12] **Sergeant Keii-Val** : "Suffering from success. We have the highest marksmanship rating in the Kickplates, so of course we get left behind when transpo needs repaired. We're too good in a fight not to help where we can."

[03:26:17] **Lieutenant Orven** : "New orders! We're joining the Councilors at the Ahulaen Mounds, reports indicate that's where the enemy forces are consolidating. Aurek Company will remain with the wounded and begin full evacuation orders alongside allied forces."

[03:27:22] **Sergeant Keii-Val** : "Sir"

[04:10:50] **Sergeant Keii-Val** : "Aurek gets the safe job, we're following the Arconan transpland and Jedi into combat, of course."

[00:00:00] **File Revised** : Long march with no combat and unsubstantive banter excised from record.

[28:02:45] **Noise detected** : Initially unidentified 'Roar', coincided with Chicyciot's Force Rage incident.

[28:10:56] **Sergeant Keii-Val** : "Pompous beskar-clad old man. No one'd even notice if he were taken down in the crossfire. Kickplates, fire on the Mandalorian."

[28:12:35] **Noise detected** : Affirmative shouts, blaster fire in near succession.

[28:35:01] **Noise detected** : Collision, plasteel buckling.

[28:39:01] **Sergeant Keii-Val** : "Ali'si... What have I done? Men... Cea... se..."

[28:47:32] **High Councilor Sol, Gui** : "Stand down! Or I'll make you."

[28:53:08] **Noise detected** : Bio-Monitor Flatline
