

SOULFIRE PROFILES: Ajax Feng

NAME: Achilleus

AGE: 27

SPECIES: Zabrak

AFFILIATION: Clan Arcona

STATUS: Active

ASSOCIATES: Andrelious J. Inahj (former master), Countless bounty hunters and thugs on Port Ol'val and Coruscant

PROFESSION: Soldier, spy, assassin

ORIGIN

Achilleus, formally known as Incendus, was born on Coruscant in 11 ABY. He was recruited by the recovering Hutt Cartel at a young age (exact age is unknown; information from various sources range from 15 to as early as 11 years of age). There he learned how to run the streets, working various jobs ranging from the work of a common thug to hit contracts on politicians that endangered Hutt operations. Eventually he became a renowned bounty hunter, expanding the influence of the Cartel among the Coruscantian underworld. Rival gang leaders began issuing contracts for his head.

The recent spike in "popularity" caused the amount of credits on his head to constantly rise as fearing crime lords attempted to bring in the best bounty hunters around. A fellow thug under the Cartel used their shared allegiance to get in close and take Achilleus' head for his own, and sell it to the highest bidder. Achilleus suspected nothing, and was quickly gunned down, but not killed. As the bounty hunter closed in for the kill, the Force found him, and a short burst of lightning shot from his hands, fatally injuring his enemy, who, immediately fearing for his life, fled from the scene.

After his recovery, paid in full by the Hutts, Achilleus knew he could not trust anyone. He went to the local cantina to find a way off of Coruscant. There, he was met by a Brotherhood recruiter, and the rest is history.

BROTHERHOOD AFFAIRS

Soon after his initiation into the Brotherhood around 36 ABY, Achilleus was placed under the banner of Arcona, transferred to House Qel-Droma, apprenticed under Andrelious Inahj, and recruited into Shadow Gate. Here he completed both the Alpha and Bravo training regimens. He served alongside other members of Shadow Gate in Operation Rolling Thunder, where the team fought off an immense force of Chiss soldiers and rigged an entire space station to blow up. He would later combat the pressing forces of FOTW, Mal Company, and the Besadii Clan as they attempted to dominate Port Ol'val.

Besides his descreet work with Shadow Gate, Achilles has also worked on the front lines of many Brotherhood affairs, including his piloting work and relief efforts during the Horizons Crisis.

He would later serve in the Arconan infantry during the Arconan Assault on Krayiss II, as well as working with various strike teams when the invasion called for special ops. It was during this battle that Achilles was somehow captured by cloaked Bothans hired by the One Sith. He was presumed to be dead by his superiors, and was left after the One Sith occupation was ended. However, he returned to the Brotherhood in 38 ABY, and immediately returned to service during the Assault on Nicht Ka. The details concerning his survival are unknown.

LIKES

Achilleus is a musician. When he wasn't collecting bounties on Coruscant, he was playing Jazz and blues at a shady cantina. He is also a gambler, and during wartime, has often played Pazaak matches with other Arconans in between battles. He also likes apple butter and fried Endorian Chicken.

DISLIKES

Hutts, people named Ray-Ray, the Bathrooms at the Shadow Academy.

STRENGTHS

Excellent saboteur, decent hand-to-hand combat skills, decent pilot (though he's no Andrelious), occasionally has nice hair.

WEAKNESSES

Achilleus' only weakness is in his allies. He will not leave an injured ally behind, and though the scenario of an Arconan hurt on the field seldom occurs (because Arcona = #Beastmode), he will act on it when the situation arises. While this can sometimes parallel as a strength, it has also put the mission in jeopardy at times. He has, however, gained more control over himself and his passion for his comrades.

CONCLUSION

Achilleus' work as a spy/assassin and his service on the Arconan front have shaped him into the prime example of a soldier. While he keeps a relaxed attitude off of the field, he is constantly diligent and prepared for any outcome. He will not surrender in battle until the last minute, and revels in the challenge that comes when the odds are stacked against him. Indeed, they have been against him his entire life. It was this fact that guided Andrelious' decision to appoint him to Soulfire.
