

# The Judecca Times Post News for the Imperials

---

*P*reviously, on the world in the Cocytus System, chaos still ensues and entwines the beings that inhabit the provinces! Plagued by death, turmoil, monsters, and countless other plagues; wrought by the devout followers of those claimed, "Old Gods." According to my colleague, the perpetrator's reasoning is to wipe the "false Empire" from existence!"

Thru ought the terrible battles, innocent beings to have been the cost of such a war that started right under our noses. A man who calls himself Vanis has constantly eluded the powers that be, who are also trying to silence their failure! Although they may "protect" us, which does not always coincide with our "well-being."

They constantly drive us down for their own gain, and this time, the forces against them prove too much! I do not know if this will ever be published, but the public must know! Monster's pour from holes in areas, massive crevices spill them out to feed on the helpless citizens. A source, who forced me to let him remain anonymous, has reported to me directly that the ritual was performed on Judecca, the source of power radiating to release the monsters appears there.

---

*"Followers of those claimed, 'Old Gods.'*

*According to my colleague, the perpetrator's reasoning is to wipe the 'false Empire' from existence!"*

---

*R*eports are coming in from all over about massive creatures that are terrorizing the inhabitants. They are extremely powerful, dangerous and deadly, if you see one, call the Imperial Palace so the proper authorities can track it and take them out.

---

*"They were a distraction...this was Vanis. We need to find him and deal with these beasts."*

*Xen'Mordin Emperor*

---

*There have been sightings of four different monsters; however, one is roaming in a pack of them! The first is a gigantic sandworm that is currently eating its way through the wastes of Antenora. It is causing structural damage and creating deep chasms, please stay clear of them!*

*The second monster rose from the ocean floor from Judecca! Reports are saying it is an Abyssal type creature that has glowing eyes and tentacles! Powers unknown, but eating anything in sight, please stay clear from the beaches!*

*The third monster reported is the pack of some sort of Forest Beast. They are well hidden and stealthy, much is unknown, please stay clear of the Jungle!*

*Lastly is the deadly Colossus from the Frozen Wastes of Caina! It is the farthest away, but seems the most destructive and resilient! Stay tuned for its path of destruction!*

*This so called protection from the Infinite Empire has failed us. The men known as Xen'Mordin Vismorsus and Eetherbiail Zarih'Taen have done nothing to quell Vanis through all of his past persistence and meddling. Please, stay safe citizens of Judecca. We have survived much, we will survive this.*
