- Starfighters - Fifth Starfighter Wing (Deploys with Indomitable)

Home Defense: Space Station - Cardan-III Space Station Dynasty II

Starfighters - Sixth Starfighter Wing - (Based on Dynasty II)

Mission Briefing

To defend our capital cities, outside residences and business sites deemed invaluable to the Empire.

The four core planets of the Cocytus system are in danger. With each home to its own unique monster, the forces of Scholae Palatinae don't have time to focus on any single planet at a time. Each must be dealt with as quickly as possible.

Luckily Scholae Palatinae is home to an amazing military force, and has some brilliant tacticians. With an unlimited access to the resources of the Cocytus Imperial Military, divide the forces, and members of the clan to deal with the monsters.

Ptolomea Tactic

Dynasty II will orbit the planet and provide pit stop, back up orbital strikes and intelligence and communication with the flotillas, as Sixth Starfighter Wing scout Tetoulchican and neutralise the Forest Beasts. VT-49 Decimators Astarte and Adamant will remain by Dynasty II as orbital backup.

Caina Tactics

ISD-II Indomitable will orbit the planet, provide orbital firing, act as a pit stop for Fourth and Fifth Starfighter Wings and intelligence and communication will other flotillas. Repulse and Victorious will provide the main orbital firing, along with Dominion and Defender all targeting the Colossus. The Starfighter Wings will descend to Kas'im Citadel, to engage and neutralise the Colossus.

Antenora Tactics

ISD-II Warspite will orbit the planet, provide backup orbital firing, act as a pit stop for Third and Second Starfighter Wings and as intelligence and communication with other flotillas. Heavy Cruisers Renown and Vanquisher will provide heavy orbital firepower onto the Sandworm as Frigates Daring and Defiant will provide the main assault. The Starfighter Wings will descend and orbit Nas Modeh, assaulting and providing feedback to the Second Flotilla.

Judecca Tactic

ISD-II Dark Paladin will orbit the planet, provide backup orbital firing, act as a pit stop for First Starfighter Wing and as intelligence and communication with other flotillas. Heavy Cruiser Relentless and Frigates Dagger and Dauntless will provide heavy orbital firepower onto the Sandworm as Assault Craft Decimators Audacious, Archer, Ardent and Arrogant will provide the main assault. The Starfighter Wings will descend and orbit Nas Modeh, assaulting and providing feedback to the First Flotilla.

Force User Tactics

Any volunteers from the Clan members can be assigned onto any flotilla, wing or command of ships, approval must come from the Emperor and Grand Marshal himself without Force Illusions or Mind Tricks. Failure to do so will serve as a permanent reminder on your service record and the War Council will be noted. Assault Craft and Heavy Cruisers are the only requestable ships to remove from the battle plan. All other questions and inquiries must go through the War Council.
