

*Unity from Shadow*

Terrors in the darkest night  
Assassins striking down their foes  
Committed to their vile calling  
Infiltration and deception  
Terrors in the darkest night  
Utter destruction coming to pass  
Shadows of death

All the night's terrors  
Thrashing silently  
Hands on blades and daggers  
All the night's terrors  
Nights endlessly passing  
Assassins striking down their foes  
Silently and steadily  
Infiltration and deception  
Utter destruction coming to pass  
Silent death from Tacitus Athanasius
