

Headshot/Image	Rorix Varn Mercenary, Scoundrel Human Male, 33, Left-handed Height: 1.8m / 5'11"ft. , Weight: 71kgs / 156lbs	
Physical Description		Preferred Weapons
Often times, Rorix appears calm, if not relaxed, but this a ploy in order to put those around him at a disadvantage. His face is usually well-trimmed, his cliche goatee and mustache giving him the appearance of a suave trickster.		<ul style="list-style-type: none"> * 2x Slugthrowers ("Mavis" and "Marcy") * 1x Thermal Detonator ("Big Beyonka") * 1x Grappling hook * 3x Vibroknives
General Aspects		
There's a Knife in My Boot Fond of staying alive, Rorix keeps several blades hidden on himself at all times, all in different locations. He switches those locations periodically in order to maintain surprise even among allies who may have seen them. Unfortunately this sometimes means he's slower to draw one if he forgets where he put them.	Lost Loyalties Rorix gave his loyalty to the First Order, hoping to make some money while working for a growing organization. He discovered too late that the items he was smuggling through Resistance territory were weapons designed to attack Resistance families. During one such mission he finally made a decision and instead warned the recipients that there were bombs amidst them, unbeknownst that a spy lived among them. His actions were reported and the First Order repayed his betrayal with a lasting reminder through torture. Now he struggles with getting too close to his employer, relying on distance to remain professional and keep his skin safe. This means any of the perks of cementing a friend-/partnership long term are mostly lost to him.	
Personality Aspects		
Mother Tell Your Children Not to Come My Way Rorix is what some like to call a "Ladies man." No matter where he finds himself in the galaxy, he always ends up getting a handprint on his cheek. He takes lessons from the old adage "Practice makes perfect," though, so he finds it easier to persuade females in conversation than males.	I'm a Liar...Honest Though a dubious individual, Rorix still believes in the effectiveness of the Truth, having discovered time and again that sometimes it will benefit one more than deception. As such, he will be honest with an individual if he feels the information will not harm himself or his mission in any way. However, this means that another could use that against him to glean important knowledge that would affect something or someone else.	
Combat Aspects		
The Perfect Threesome Always ready for a fight, Rorix never lets a hand stray far from at least one of his prized slugthrowers. His pride in them has become so deep that he named them after his two favorite	Big Beyonka The woman who gave birth to Rorix. Also, a customised thermal detonator named after her. He keeps the explosive on hand in case the situation turns dire. It's highly destructive power was
