

This document contains three separate lists of names. The Lady, Cheeky and Edgy name variants for each ship. Enjoy/Suffer!

Lady Names			
Type	Class	Name	Info
Assault Ship	Acclamator-Class	<i>The Lady's Foot</i>	When she needs to put her foot down, also because it carries ground troops

Gunship	Braha'tok-class	<i>The Lady's Hand</i>	See above
Gunship	Braha'tok-class	<i>The Lady's Temper</i>	Because honestly, when you get tired of those fighters messing up your shizzle, you call this ship in. The crew is made up of the best Holoconsole players and they will always get the Hi Score (Time to raise my APM!)
Gunship	DP20 Corellian	<i>The Lady's Gaze</i>	Even without eyes, she has a mean stare...
Gunship	DP20 Corellian	<i>The Lady's Bite</i>	Is worse than her bark. Named so because the crew of this ship has a reputation of going ovaries-to-the-wall even against enemy capital ships.
Gunship	DP20 Corellian	<i>The Lady's Bark</i>	Not as powerful as her bite, but still potent.
Frigate	Nebulon-B	<i>The Lady's Figure</i>	Because she has that nice hourglass figure, right?

Corvette	Marauder-class	<i>The Lady's Fist</i>	For when you really need to hit something hard
Cruiser Carrier	Quasar Fire-class	<i>The Lady's Purse</i>	Where do all these fighters keep coming from?! How can so many ships fit inside such a small carrier?! OMG!
Medium Cruiser	Strike-class	<i>The Lady's Eyes</i>	Because she has no... Also, because it is outfitted with high-tech surveillance equipment in lieu of heavier weapons
Medium Cruiser	Strike-class	<i>The Lady's Ears</i>	Equipped with Stealth modification and EW suite, intended to be used as a spy ship and drift through "hostile" systems while in silent running to Eavesdrop on Arcona's foes (and allies)

Medium Cruiser	Strike-class	<i>The Lady's Word</i>	Because Mouth sounded silly. Also has the heaviest firepower with a Command&Control suite and full Turbo Laster armament fitted.

Cheeky names			
Type	Class	Name	Info
Assault Ship	Acclamator-Class	<i>The Lady's Triangle</i>	It's old and has been boarded by thousands of low-ranking troops, I mean what?
Gunship	Braha'tok-class	<i>Bug-Squisha</i>	For when those enemy fighters come a swarmin'...
Gunship	Braha'tok-class	<i>Towelette</i>	When you've got a bogey on your tail, who's gonna wipe it clean?
Gunship	Braha'tok-class	<i>Alabama</i>	Because a ship this refined took several generations of selected inbreeding to produce
Gunship	DP20 Corellian	<i>Spear of Ryn / Kordath's Pride</i>	Because it's short an' stubby an' cute
Gunship	DP20 Corellian	<i>Lil' Pokey</i>	See above
Gunship	DP20 Corellian	<i>Bleu Balls</i>	Related to above, famous for always arriving too late for the good action
Frigate	Nebulon-B	<i>Bulimia / Hornless Unicorn</i>	Because this ship clearly suffers from it... / I looks just like a hornless unicorn! So a regular horse? Yes! And a malnourished one at that...
Heavy Cruiser	Vindicator	<i>Care Bear Stare</i>	Named because the Shadow Lady has no eyes to stare at you with
Corvette	Marauder-class	<i>Tali's Revenge / Death Lekku</i>	Because if you look at it from above, it sorta looks like a Twi'lek's head, if you squint a bit, kinda?
Cruiser Carrier	Quasar Fire-class	<i>Clap / Syphilis Majoris</i>	Spreading the joy!
Medium Cruiser	Strike-class	<i>Snowflake 999</i>	Because irony
Medium Cruiser	Strike-class	<i>Your OC</i>	See above
Medium Cruiser	Strike-class	<i>My OC</i>	See above, also if you didn't get it, these ships were designed to be dull and mass-produced...

Edgy names			
Type	Class	Name	Info
Assault Ship	Acclamator-Class	<i>Subvectio</i>	Because it delivers troops to the front
Gunship	Braha'tok-class	<i>Ignis Tempestas</i>	Firestorm
Gunship	Braha'tok-class	<i>Nighthowler</i>	Named in honor of the legendary beast slain by Tali Sroka and Kordath Bleu, earning them the adulation of an entire planet (of simple-minded primitives who did not understand the beast was an overgrown fruit-bat)
Gunship	Braha'tok-class	<i>Rancor's Bride</i>	Because it's about as pretty as one...
Gunship	DP20 Corellian	<i>Indomitable</i>	
Gunship	DP20 Corellian	<i>Equus Operor</i>	Workhorse. :P
Gunship	DP20 Corellian	<i>Arcona Aeternum</i>	The oldest ship in the Arconan fleet registry still in active service (Counted in service years, not hull years. The Subvectio is older.)

Heavy Cruiser	Vindicator	<i>Will of our Lady</i>	Need I say more?
Corvette	Marauder-class	<i>Noctis Maleficus</i>	Stealth Corvette designed for terror missions, slips in, unloads a massive strike of missiles and ordinance before melting into nothingness
Cruiser Carrier	Quasar Fire-class	<i>Tenebrae</i>	Painted matt black and most of her flight lights operating in the IR spectrum to hide her presence, she can launch strikes from seemingly nowhere, so a fitting name.
Medium Cruiser	Strike-class	<i>Arcona Fidelis / Fidelis Aeternum</i>	Renamed after it became the ship to have been refitted the most times after suffering crippling damage in combat. An honorary title to show its dependable service though adversity.
Medium Cruiser	Strike-class	<i>Shadowfiend</i>	
Medium Cruiser	Strike-class	<i>Felix Rictus</i>	Grinning Cat (Cheshire Cat)
