## **Biography**

Born on Concordia in 7 ABY, little is known about the time before Rian Taldrya joined the Brotherhood after being recruited by his former Master Shaz'air Taldrya in 25 ABY. He has spent his entire carrier as member of Clan Taldryan. During his carrier he made himself a name by serving the Clan in various intern Leadership positions and eventually became a Son of Taldrya in honor for his service as Consul of the Clan in 32 ABY.

After stepping down from the position as Consul of Taldryan, Rian focused becoming an agent for the Intelligence Branch of the Taldryan Expansionary Forces and eventually managed to infiltrate the Dark Council as a Magistrate of the Herald. Up to the point where the Justicar attacked the homeworld of Taldryan, forcing him to give up on his mission in favor of helping the rest of his Clan during the attack before again becoming the Quaestor of House Ektrosis, a sub-unit of Clan Taldryan in the aftermath of the destruction of their homeworld.

## **Personality and Traits**

The Taldrya has a somewhat heroic personality that too can be found in the records about his style of leading others where he followed the principle of actions speaking louder for one self than words could do. Additionally Rian is known to take a high interest in the well being of his comrades, even risking the outcome of a mission he has been ordered to only to make sure every member of his team gets out alive.

These traits make him a well respected member among the rest of the Clan resulting in most of his comrades seeing more like a friend in him than just only the person giving them orders and it is absolutely possible that they would stand along him treating him with the exact same heroic behavior as he would, especially those who know have already fought side-by-side with him.

## **Powers and Abilities**

Rian Taldrya is not to be taken lightly, he is a skilled swordsman as he has proven time over time in encounters with various other members of the Inquisitorius during the attack on Taldryan's homeworld. He has not only mastered the second Lightsaberform known as Makashi, he has also received training in the principles of Trakata making him an more than capable adversary.

He is also proficient in the Shien Lightsaberform and in the hand-to-hand combat form known as Mandalorian Core.

Rian can usually be seen carrying at least two lightsabers and a Westar-35 Blaster at his side though he has been seen to carry other weapons as well including a Sapphire Blade and an Amethyst Kukri which he received for the services he did for his Clan.

### **Possessions**

Rian Taldrya is in ownership of various items, including the StormCloud, his personal Kom'rk-class fighter, a BB-series Droid he calls Cipher and runs by the official designation of BB-C5r and a DRK-1 Probe-Droid running by the name Echo.
