### *Patient Information*

*First Name: Satsi*

*Last Name: Tameike*

*Age: 36*

*Date of birth: N/A*

*Sex: Female*

*Height: 1.77m*

*Weight: 78kg*

*Species: Human*

*Blood type: AB+*

*Planet of origin: Coruscant*

*Emergency contact(s): Tameike, Uji; Bleu, Kordath; Zujenia; ~~Entar, Atyiru~~*

*Marital status: Married (spouse: Tameike, Uji)*

*Pregnancies (if applicable): 2 (see notes)*

*History of family disease: N/A (no known information on family medical records)*

*Previous surgeries: see notes*

*Conditions: see notes*

*Reason for admittance today: GSW to left leg; overdosage on stimulants; arrhythmias; tachycardia; vomiting; internal hemorrhage; heart infarction; high grade fever*

*Treatment: surgery to remove bullet and repair damaged artery & tissues. Prescrp. beta blockers & alpha-adrenergic blocker & vasodilator. IV fluids 2L w/ IV anxiolytic and sedative q4q. Patient sedated & cooled to treat hyperthermia. Monitor for temperature spikes or seizing due to lowered seizure threshold w/ beta blockers. Monitor for further ischemia or infarction.*

### *Notes:*

*First time admitting patient by DR Corsin, though records show patient is known in hospital. Extensive medical records and treatments processed here. Patient seems to have propensity for injury. Former primary care physician was DR Entar, Atyiru. Additionally seen by many various on call physicians and nurses.*

*DR Corsin is of the opinion that DR Entar was perhaps too relaxed in notation of patient past medical history, or that patient was not forthcoming of information. Much unknown. See further notes attach. See also document from DR Entar, as dictated by patient, of scarring record.*

*S.T. Scarring Reminder*

*(So I don't have to touch her every time, and she doesn't have to punch me every time. I swear, Ashla and Bogan, this family of bumblefluffs.)*

Face/Head:

- Thick horizontal slash across bridge of nose (middle of)
- Thick, jagged/unevenly edged slash on right cheek, under the eye/over top cheekbone
- Smaller vertical slash curving over the right side of chin
- Scars behind each of ears ("one day I didn't "listen" so master started to cut them off since I "didn't need them")
- Crisscrossed, prominent horizontal slash on throat ("had it slit once or twice...or more")

Chest:

- Double, parallel slashes on the upper portion of left breast, about over the heart
- Jagged horizontal slash over right collarbone
- Very small, curved slash on the underside of right breast

Abdomen:

- Black Sun brand, thick, waxy smooth burn tissue, upper left abdominal, just below left breast
- Long, rough, straight, skinny vertical slash all the way down left side
- Medium-length crescent-moon, horizontal incision on lower mid-left abdomen, very close to naval (reference surgical scars from complete hysterectomy; additional incision for replacement of organs)
- Horizontal slashes on upper right abdominal and more up side on lower left, near surgical scar
- Nearly indiscernible rows of small holes down either side of abdominals, ("from nails")
- Circular bullet/blaster wound in middle right
- Other various slashes and marks. (see attached holo)

Arms:

- Long, thick, tapering vertical slash all down the middle of left deltoid/bicep

- Thick horizontal stab about mid left arm
- X-slash on upper right arm, more upper bicep/shoulder area
- Nearly indiscernible rows of holes down inner forearms and clustering in palms, ("from nails")
- Lots of little slashes and scars going down her arms, creeping over her shoulders, ect
- Bullet hole in left shoulder

Hands:

- Fingers and palms scarred all over with little tiny knick marks, from everything to ("slipping while sharpening a blade to torn up fingers while digging in stone to purposefully-carved cuts")
- Knuckles are covered in tiny scars, scraps, and callouses
- There is a large, jagged cut/burn scar over the left side of left hand, takes up most of the side of that hand
- Circular burn scar in left first phalange ("he put the ring on me while heated (not super hot, but hot enough)").

Legs:

- Lots of horizontal slashes, particularly on right leg but on both, on the inner thigh. These are self-inflicted in pattern, so they're neater and in a column.
- Diagonal slash from right hip to middle of right thigh around the front
- X-slash lower on the right thigh, near the side
- Twisty knot of scar tissue on mid-left thigh, kind of has a hook shape ("stabbed and then the knife jerked")
- Diagonal slash on upper left thigh
- Lots of smaller scars (see attached holo)
- Lower legs/calves have some horizontal slashes around the backs of the knees, some horizontal/vertical ones on the fronts, other little marks.

Feet:

- Ankles have scarring all around them as if from shackles or ropes
- Tops are mostly clear, but the underside/sides of her feet are almost completely covered in a criss-crossed web of light, thin scars from ("whipping/caning.")

Back:

- Several small slashes/stab wounded her and there (below right shoulder blade, two around her left shoulder that are covered by butterfly tattoo, and a few other marks
- Predominant, jagged strip of scar tissue around exposed cyber spine unit splits back
- Spine itself and nodes
- Circular bullet/blaster wound in middle right, below mid right node
