	<p><b>Telaris "Mav" Cantor</b>                  Grand Master                  [Sith] [Ace]                  Male Human, Right Handed                  Height: 1.9 m / 6'3" - Weight: 90.0 kg / 198 lbs</p>	
<p><b>Physical Description</b></p>		<p><b>Loadout Equipment / Weapons</b></p>
<p>Mav has an athletic build and a tall stature. His emerald eyes and sandy brown hair gracefully frame his equiline nose and razor cut chin. His bronze skin is free of tattoos of other features.</p>	<p>* Lightsaber</p>	
<p><b>General Aspects</b></p>		
<p><b>Pilot Orientation</b>                  Mav is very familiar behind the sticks of a cockpit whether it be of a fighter craft or a capital ship. This allows him to be a thoroughly good flier but when forced to be grounded for long periods of time he becomes aloof and surly.</p>	<p><b>Friend of Nature</b>                  Mav has an affinity with creatures and easily befriends many manner of beast. While this care for animals is highly cultivated it puts him at odds with those who see creatures as beast of burden or a nuisance.</p>	
<p><b>Personality Aspects</b></p>		
<p><b>Diplomat</b>                  Mav has spent years rising up the ranks of the DJB and is a 'company man' in many sense of the phrase. This has allowed him to play off the politics of the organization but many distrust his motives and this makes it hard for others to trust him</p>	<p><b>Optimistic</b>                  Mav always looks on the bright side of things. This normally cheery demeanor is a benefit to likeminded individuals but is rather off putting to those of a more cynical nature.</p>	
<p><b>Combat Aspects</b></p>		
<p><b>Graceful Blade</b>                  Mav has trained extensively in his given lightsaber form. This has allowed him to become truly graceful and fluid in his motions with the given form, but at the detriment of not performing any other forms to the same caliber and he is truly weak when facing an opponent trained to negate his form.</p>	<p><b>Look Left, Swing Right</b>                  Mav takes pride in his ability to misdirect his opponents. Whether is be feinting a block or an attack, this allows him to usually stay one step ahead. However, when his opponent knows of this or learns his tricks he comes up short.</p>
