

**Item name:** SP 1200 Thillon Kyber Rifle.

**Type:** Weapon (Blaster)

**Category:** Blaster Rifle

**Size:** 2 Slots

**Rarity:** Epic

**Store:** Antei Armaments

**Item Description:**

A highly developed blaster rifle created by the scientists of the Severian Principate. A sleek outer design hides the incredibly sophisticated inner workings. At the center of the blaster is a powercell using a Kyber crystal mined from the mines of Thillon's moon. Because of the crystal source, the blaster is far more lethal than a standard blaster, and far more dangerous to utilize by the untrained. Without sufficient training the blaster could become unstable, causing the Kyber crystal inside to detonate.
