

This is an entry for the competition **[GJW XIII Phase II] Miscellaneous - New Acquisitions**

Submitted by Padawan Appius Wight of Clan Vizsla

Item Name: Crossguard Lightsaber

Item Category: Lightsaber

Proposed Store: Antei Armaments

Proposed Rarity: Epic

Item Description: The Crossguard Lightsaber works just like an ordinary Lightsaber In offence and defence. It can cut and pierce through most materials except it emits three blades instead of one. One primary blade and two out of the sides of the hilt called Quillon. This was designed to protect the users hands from harm in duels and battles.
