Notes/Extra (Include any backstory here)

Mav is a hardened individual that had to grow up on the unforgiving streets of Corellia. His manifested force powers helped him survive during his young teenage days. When he found the brotherhood, he was taken under wing and learned more about how to manipulate, interrogate, and convince people. His Force abilities continued to flourish all the way through his time in the journeyman ranks. Soon, he found himself above his superiors and has now become a terrifying Grandmaster. He is a sight to behold and a nightmare on the battlefield.
