

Telaris "Mav" Cantor

Grand Master

[Force Disciple] [Techweaver]

Male Human, Right Handed

Height: 1.9 m / 6'3" - Weight: 90.0 kg / 198 lbs

Physical Description		Loadout Equipment / Weapons
<p>Telaris is a tall, middle-aged human. Some remark that he is quite handsome for an average human but for the most part he tends to blend in with most humans due to his dusky brown hair, brown eyes, and average facial features. He usually keeps his hair down to his ears, preferring to preserve his wavy locks. He has light-colored skin with no visible imperfections and a trimmed, athletic build.</p>		<ul style="list-style-type: none"> * Elder Lightsaber * Synergy WLD-5 Peacekeeper * Droid Control Unit * Thermal Detonator * Electrobinoculars * Computer Probe * Performance Datapad * C1 Personal Comlink * Nerf-wool Towel
General Aspects		
<p>Not So Dark...Maybe Mav is a complicated individual, wanting his cake and eating it too. Titles are transient to him and he has no qualms using Sith or Emperor even though deep down he knows he is an angry Jedi who wants to find the light. This leads to general confusion as to who he is and what he stands for.</p>		<p>Secretly Scared Mav loves to use fear-based attacks but much like his beloved empires before him, they fear just as much as those they put down. Instead of dealing with these fears, he puts them on others. As a result, Mav isn't always great at making friends.</p>
Personality Aspects		
<p>You don't understand? Mav has grand plans but often others have no idea what he is trying to do.</p>		<p>Details... Mav cares about details a lot. He sometimes loses the big picture.</p>
Combat Aspects		
<p>Let Them Be Afraid Mav likes to make people afraid before he fights them. This allows some people to get the jump on him first.</p>		<p>Halp Mav likes to use droid friends to help him fight. Sometimes he gets caught in a time pinch.</p>

Additional Information

Skills
