Clan Vizsla Signet The Widowmaker

- **Name:** The *Widowmaker* - Clan Vizsla Signet
- **Physical Specifications:** A small seal, set within the Mandalorian armor of members of Clan Vizsla. The seal is in the form of a bat-winged creature with a motto engraved beneath it.
- **Technical Specifications:** A Mandalorian Armor smith is required to properly engrave the signet within beskar armor. The practice of etching the intricate design is handed down from specially selected Clan Vizsla members and can only be accomplished by those honored with the task of knowing the way.
- **History:** The signet is the single form of authentication required for Clan Vizsla's members. The signet's design is based on an extinct bat-like creature known as the Widowmaker for its ferocity in combat and ability to descend upon unsuspecting prey from the sky. The motto below the signet is written in ancient script and is roughly translated into "Come and take it." The phrase and signet have become a rallying cry for Clan Vizsla since their formation. It was the first heard throughout the Brotherhood during GJW XIII.
