

1. Evant once “misplaced” ten million credits from the Brotherhood’s accounts while on an unplanned trip to Canto Bight.
2. When Evant was only 6 his pet tooka, Floofer ran away. He never recovered from this and slept with a stuffed Loth-Wolf every single night afterwards.
3. Evant is actually extremely introverted and does not like dealing with people. The Evant known to the Brotherhood is actually an actor hired by the real Deputy Grand master so that he doesn’t have to talk to anyone.
