

Name: Telo'sar

Race: Dashade

Rank: Legend

Discipline: Weapon Spec +2 to bladed and +1 to Slugs

Role: Anti FU Murder machine and leader of the Guild

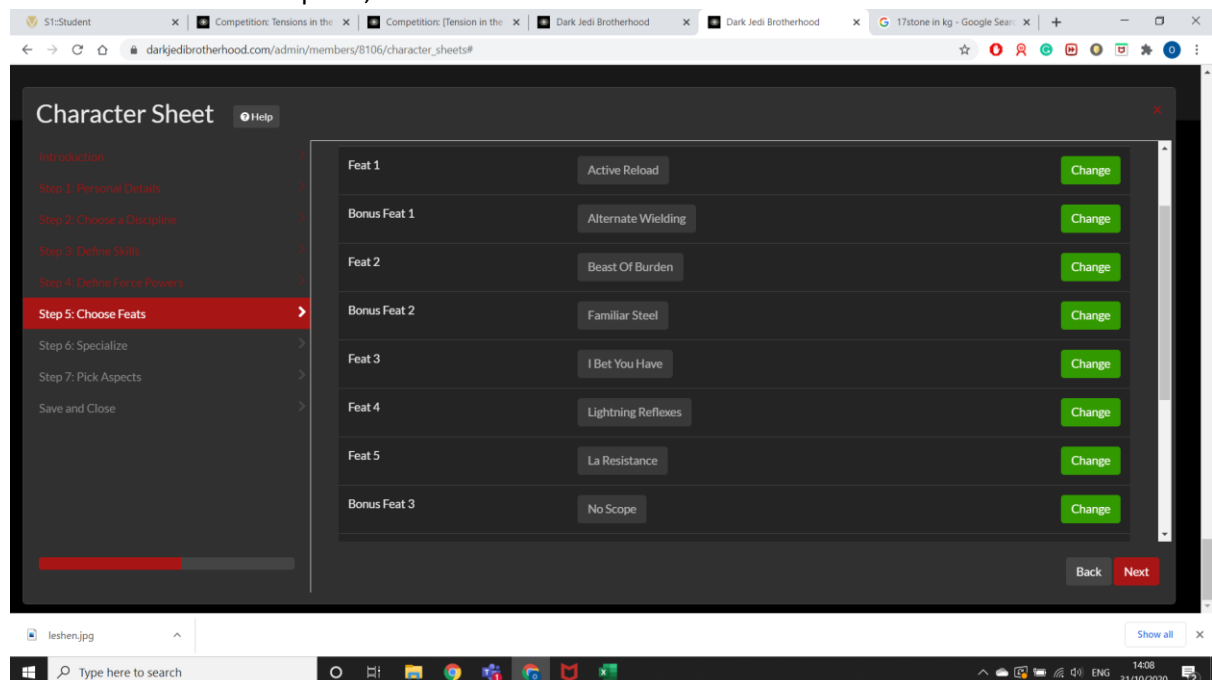

Equipment: 2 x Sith Swords, various explosives, couple slugthrowers, gadgets galore including jetpack and heavy Beskar armour.

Brief History: Ex Hutt slave, used to fight in the arenas. Won his freedom in blood and moved to the far away system of Orian. Had a decent life working as a merc for hire. Working with both Sadow in the shadows and whoever paid the highest fee.

Has been contracted, alongside his compatriots to tackle the rise of the new Empire. Has no want to be yet another slave either so to him this is personal. Has been trained in Anti-FU techniques and can even tackle a GM if need be due to his loadout and skills.

Idea; He is basically designed to kill FU's as quickly and painfully as possible. From a distance and up close. Decked out in anti fu armour and weapons he is a true terror on the field. My hope was to give our elders a challenge too given Dashade are Force power resistant and like to eat them. Might even trouble Muz.

Screens Below are his aspects, skills and feats.
