Title - Rick Rogers in 30 ABY (Ripping off Buck Rogers in the 25th Century)

Logline – Rick Rogers, a pilot from the early days of the Republic, Is caught in a cosmic storm. His ships controls and life-support is frozen and he is cast, adrift into the cold dark of space only to be discovered in the year 30ABY

Plot Summary – Rick Rogers is a Republic Shuttle pilot. During one of his flights his ship is caught in a stellar storm. The storm is an unusual one that freezes Rick and his starship and sends him hurtling into the depths of space where he floats for hundreds of years.

Pilot Plot: His ship is discovered within Arconan space by a Collective ship, the Collective are on a supposed peace mission to Selen. They capture Rick, assuming he is an Arconan Spy; they interrogate him but find he has no knowledge of use. Tests of him and his ship show him to be 2000 years old. The Collective ship is secretly preparing to lauch an attack on Selen under the guise of the peace mission, Rick gleans some of this during his time on board but is so confused he doesn't know what is happening. The Collective send Rick back into space to be discovered by The Arconan forces, unbeknownst to Rock, the Collective have installed a tracker on his ship which will allow them to find a safe route through the Planetary defences on Selen. Rick is again interrogated and examined by the Arconan Military, his mind probed by various force users and droids; however they find he is telling the truth and is a man thrown into the far future by events beyond his control. The Arconan command do not believe that the Collective ship is going to attack while under the flag of truce, so Rick manages to sneak himself on-board the ship to uncover the subterfuge. With the help of TW33K3 and TH33O, he is able to sabotage the Collective ships and fighters, forcing them to launch their attack earlier than planned; this then alerts the system defence forces. With Ricks help the Arconan forces are able to stop the Collective plans, forcing them to return to their home system in disgrace.

Continuing Plot: Rick Freelance's himself to Arcona while learning everything he can about this new time period he has been thrust into, he ends up joining Battle Team Voidbreaker on their various escapades through the Galaxy. He is joined on his escapades by various members of the team as well as his personal droids TW3K33 and TH33O. During these escapades he often saves the House and clan from various disasters, including several run-ins with the crew of the Collective ship that he first encountered
