

# Life Skill Instruction

Instructor: Jensaarai Defender Raziel

Comm Frequency: 1057924.66459

Class Times: Days 2 and 4, 1000 to 1200 hours

Class Location: Kiast Praxeum, floor 6, room Aleph-217

## Course Description:

This course is designed to prepare the padawan learner for life away from the Praxeum. While studying the ways of the Force and developing skills with the Lightsaber are crucial to the Jedi's development, learning how to operate without either of those tools is similarly important.

## Prerequisites:

Padawan 12 years of age or older

## Objectives:

The Padawan is expected to focus on, and demonstrate life skills in fields including, but not limited to:

- Basic repairs and maintenance of home appliances and vehicles, with a focus on general speeder and common droid care.
- Cooking meals with a focus on both healthy and presentable cuisine. This module also includes instruction on kitchen appliances as well.
- Safe and healthy lifestyle choices.
- Doing laundry, both daily and formal wear.
- Shopping for food, clothing, and hygiene supplies.
- Budgeting one's finances and how to apply for a job if under cover.
- Common galactic legalities, or how to stay out of jail through most of the galaxy.
- Safe vehicle operation.
- Formal event etiquette, taught by guest instructor Soona Eil. This module will include formal meal conduct, dance, drink selection, and communication skills.

## Texts and Tools:

This class has no text requirements. The Padawan will be provided with a set of common tools that they will keep following this class. The Padawan will be expected to bring a datapad with them at all times. The Praxeum will provide one set of formal robes as well as a non-Jedi formal suit or dress.

## Class Requirements:

All instruction is presented in Pass/Fail format. Each student is permitted three attempts at each module to prove satisfactory mastery. For completion of the class as a whole, the Padawan must score a minimum of 80% Pass rate overall.

This class will also have nine field trips. Six are instructional, two are demonstrational, one is recreational.

**Expectations from the instructor:**

All Padawans are expected to ask questions or be prepared to be put on the spot. A passing score in demonstration must be accompanied by in-class participation. All Padawans are expected to make all demonstrations **without** the assistance of the Force.

**Additional information:**

Given the nature of the course material, and the nature of how demonstrations are expected to be presented, the student is not expected to carry their lightsaber. However, the Padawan may do so if they choose to.

In addition, some modules may be taught by a guest instructor as well. In those cases, the guest instructor will be respected as fully as Defender Raziel.

Since there is a module for safe vehicle operation, the Kiasst government has granted Defender Raziel the ability to pass a student for their Speeder operation license. A pass in that module will automatically confer licensing.
