

Item Prototype Name - Shriek-Hawk Needler

Example Item Image

Item Prototype Proposed Rarity - Epic

Item Prototype Proposed Cost 10,000 Credits

Item Prototype Description (this section should include a brief description, as well as any armament if a starship, see existing item prototypes for an example)

Carved from the hollow bones of the wing section the Needler is a stiletto-style dagger. It is sharpened to a point and the hollow bone allows the poison to be directly injected into an enemy. It has no sharpened edges to cut with and is only good for as a stabbing weapon. It was a favored tool of ancient Mandalorian assassins.
