

Name: Crystallized Mykal

Category: Avian

Type: Companion

Size: 1 slot

Rarity: Epic

Base price: 38,000

Description: The Crystallized Mykal is a large flying predator. Although typical Mykal are native to the planet Kashyyyk, and live deep within the wilderness, the Crystallized Mykal were modified in a lab with ascendant crystals. These crystals make their attack even more lethal, as they pierce their prey while sweeping strikes from the air.
