

Name: Crystal Gizka

Rarity: Epic

Cost: 52,000

Description: The Crystal Gizka is a reptile genetically altered using ascendant crystals by the Dark Jedi Brotherhood to combat the Crystal Raptorstrike. The ascendant crystals create a durable exterior shell that is sharp and dangerous for consumption by larger predators. Just like the original Gizka, the Crystal Gizka is known for its high rate of reproduction and large litters that overwhelms native wildlife populations.
