Item Prototype Proposed Rarity: Legendary

Item Prototype Proposed Cost: 275,000

Item Prototype Description: The Crystal Rathtar is a larger, more ferocious variant of the Rathtar that has been ascended by Crystals. It's flesh has hardened and its tentacles have become almost razor-sharp when the creature flails them about. Designed to combat the monstrous creatures of the Children of Mortis, this creature is nearly untamable without the correct skills and even then is known to devour friend and foe alike in its hunt for food.
