

Raistline Taldrya Majere

Age: Mid to late 30's

Race: Human

Clan: Taldryan

Rank: Augur

Position: Quaestor of House Thanatos

Force User

Mister Majere is a long standing member of Taldryan, a clan within the organization known as the Dark Jedi Brotherhood. His field of research is in galactic history and Krath lore. Recent activity has seen Raistline staying within the Caelus System, specifically between the moon Elysia and the moon Kasiya. Transport and supply movements to Elysia suggest that Raistline may be a part of developing a new Taldryan base.

Though a highly decorated member of the Grand Master's Royal Guard, Raistline is not seen as a major threat. A political assassination may elicit local outrage from the clan Taldryan, but little or no effect would be felt within the Brotherhood's organization as a whole. We believe he does have potential to be manipulated and weaken the clan from within. His desire for new knowledge and lore of the Force could be easily exploited.
