

## Delaya-class "Watchman Edition" Courier

Delaya-class "Watchman Edition" Courier

Item Rarity: **Epic**

Item Prototype Cost: 540,000

The Delaya-class "Watchman Edition" Courier is a 70-meter long Transport [that is a modified version of the Delaya-class Courier]. Its engines are set in blocks of three on servo-controlled mountings to negate the need for maneuvering thrusters and are complemented by multiple layers of aerofoils. The interior contains training facilities, including lightsaber practice areas and a variable gravity and atmosphere room, as well as a meditation chamber. The ship's rotating laser cannons can fire in opposite directions simultaneously. Complex automatic systems integrated into the craft allow it to be operated by a single person. Hyperdrive capable, it has exceptional speed and maneuverability, with light armor and average shielding.

Armament

2 bi-directional rotating laser cannons

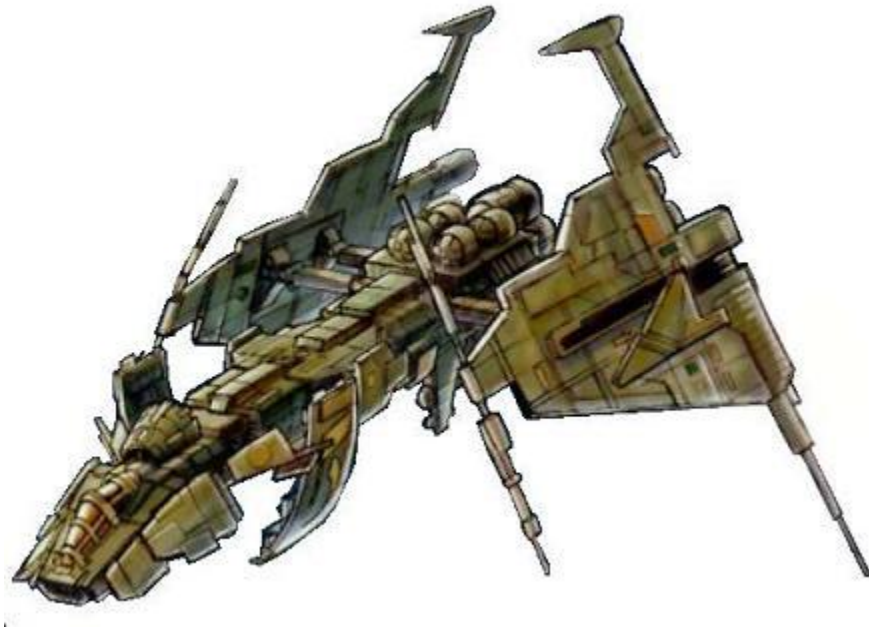

1 high-yield proton torpedo launcher

Complement  
2 crew, (minimum 1 for full effectiveness)  
68 passengers  
10 metric tons of cargo
