### Description

#### Physical Description

Red hair slightly covers a lean, warm face. Glittering black eyes, set sunken within their sockets, watch delightfully over the encampment they've befriended for so long. A gaze that could send chills down any foe's spine.

### General Aspects

#### Death to the Force

A firm believer that the galaxy at large would be better off without the Force, those that command it, and those that follow them, mirroring the views of Liberation Front leader Rath Oligard. After watching the galaxy burn time and time again during her lifespan, Su has devoted herself to eliminating any notion of the Force from the galaxy, starting with agents of the Dark Brotherhood.

#### Loyalty Is Earned, Not Bought

True loyalties lie with friends, and through thick and thin, Su will stand by them and die for them if needed. The loyalty is reserved for those who have earned Su's trust, putting her at odds with other Mercenaries that are only doing a job for the money. She also makes it harder for employers to trust her motives, oftentimes creating extra competition and difficulty finding work. None of it matters to Su, though, because loyalty to her friends is not something credits can buy.

### Personality Aspects

#### Don't Call Me Small!

Su is known for walking tall despite being of below average stature. She is quick to anger when called out for her height, and is not afraid of taking on an opponent regardless of their size or intimidation factor. Their same tenacity makes Su easier to rile up, which can be a good or bad thing depending on the situation at hand.

#### Do You Like Apples?

Su is extremely cocksure and headstrong. Possessing a keen wit and exceptional level of intelligence, Su will often use her superior intellect to humiliate lesser minds. Basically, she is kind of a jerk, and that can sometimes get Su in a bit of trouble.

### Combat Aspects

### **Tiny, But Fierce**

Su works hard to maintain an image of fierce tenacity despite being of a smaller stature. To that extent, Su has learned to not take jabs about her stature offensively, but to instead burn them quietly as fuel for her inner spirit. The flame that is sparked as a result is controlled by Su's discipline of never overestimating her own abilities or those of her opponents. She has trained to fully utilize her size as an advantage when fighting larger opponents. She knows exactly how to leverage her weight to deliver the most effective takedowns or maneuvers. The effort to maintain their image can be draining at times, and when outmatched or overwhelmed, Su becomes susceptible to a loss of spirit.

### **Minister of War**

Su is utterly devoted to success in combat, no matter the mission, no matter the cost. She has spent her life building herself in the image of war, utilizing a dogmatic regimen that has led her to a single-minded obsession with military success and requires intense physical and mental training. Their training, however, has come at the cost of anything resembling empathy or concern for others - even her superiors and subordinates.

### **Additional Notes**

Not much is known about the personal life of Su Well. Stories of a lifetime of fighting get passed on through various communication networks.
